

## Preparation for the SIFA project meeting in Vänersborg Sweden 12-18 April 2015

We at Fridagymnasiet in Vänersborg would like to start this letter by welcoming you to Sweden in April. We hope that we will have an interesting and fun week together!

### Before the meeting

Before the meeting it would be great if you could start to check some information online to consider the subject we have chosen for you. Maybe some useful links or real cases on the subject we have chosen for you (you can see the subjects and group in the other document). Also we would like for you to complete these three tasks:

1. Write an Internet diary. In the diary, you describe your online activities during two days including how many minutes you spend at each activity.

Please estimate the time you use the Internet and apps for:

What are you doing?	Day 1	Day 2
Banking, payments and transferring money		
Shopping and looking for items, including sites like Amazon and e-bay		
Social medias (Facebook, Twitter, Instagram, personal email etc)		
Games on the Internet (Farmville, Minecraft, WoW etc)		
Newspapers (National or local newspaper)		
Search for facts and time you spend working with school assignments online		
Get information from school, Communicate with your teachers to plan for your studies using the Internet (e-mail, assignments etc)		
Other things		

I'm from \_\_\_\_\_ (country)

2. Watch these two videos with people talking about Internet security.

<https://www.youtube.com/watch?v=hqKafI7Amd8>

<https://www.youtube.com/watch?v=KwJyKmCbOws>

3. Read the following article:

<http://www.forbes.com/sites/marcwebertobias/2013/02/10/internet-security-whom-should-you-trust/>

Please print this out the first page and you can fill it in by hand. Bring the paper with you to Sweden.

**Happy Easter!**
